### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**First Office Action on the Merits of a RCE**

***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on April 7, 2004 has been entered.

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 35 and 36 are rejected under 35 U.S.C. 102(b) as being anticipated by Amer (US 4,963,346).

Amer teaches a composition comprising at least about 80%, preferably at least 99% and higher, phytosterols for treatment of dental plaque, calculus and gingivitis (see the entire article, especially col. 2, col. 3, lines 34-61; col. 8, lines 15-24). The composition taught by the reference is encompassed by the instant claims.

***Claim Rejections - 35 USC § 103***

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 35-37 is rejected under 35 U.S.C. 103(a) as being unpatentable over Amer (US 4,963,346).

Amer teaches a composition comprising at least about 80%, preferably at least 99% and higher, phytosterols for treatment of dental plaque, calculus and gingivitis (see the entire article, especially col. 2, col. 3, lines 34-61; col. 8, lines 15-24).

The instant claims differ from the reference by reciting a composition having a citrostadienol content of 0.5 by weight or less. The reference teaches that in addition to known phytosterols, the composition comprises unidentified phytosterols, cycloartenol and citrostadienol. The reference is silent as to the amount of citrostadienol present in the prior art composition. However, based on the teachings of Amer and the knowledge in the pharmaceutical art that increase purification reduces adverse effects of

pharmaceuticals, the skilled artisan would be motivated to obtain a composition having 99% or higher phytosterol with the reasonable expectation that the composition would be useful as taught by the prior art.

***Allowable Subject Matter***

7. Claims 9-34 are allowed.

***Telephone Inquiry***

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Barbara P. Badio, Ph.D. whose telephone number is 571-272-0609. The examiner can normally be reached on M-F from 6:00am-3:30pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thurman K. Page can be reached on 571-272-0602. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
